SECTION C: SPECIFICATIONS/WORK STATEMENT

C.1 SCOPE

The Office of the Attorney General is seeking a contractor experienced in conducting program evaluation of violence reduction programs to determine the overall effectiveness of the District’s Cure the Streets (CTS) violence interruption program; its specific impact on reducing gun violence in the District; and opportunities to increase effectiveness.

The purpose of this procurement is to enlist program evaluation, data analysis, reporting, and online database services required for the Office of the Attorney General’s (OAG) Cure the Streets program.

OAG will work with the Contractor to develop a new online database to capture program performance and case management metrics. OAG will also work with the Contractor to define the program evaluation methodology, identify evidence-based success metrics of the Cure the Streets program, and develop an online data dashboard and reporting tools.

OAG anticipates making an award by early January 2025. The estimated spend on this procurement is \$120,000.

C.2 BACKGROUND

In 2018, with funding support from the Council of the District of Columbia, OAG, through its Violence Reduction Unit (VRU), launched “Cure the Streets”—a violence interruption pilot program that now operates in ten sites with some of the highest rates of gun violence. Cure the Streets uses proven, public- health strategies that treat violence like a disease that can be interrupted, treated, and stopped from spreading. Cure the Streets focuses on three main actions:

- (1) Interrupt potentially violent conflicts by preventing retaliation and mediating simmering disputes;
- (2) Identify and treat individuals at the highest risk for conflict by providing support services and changing behavior; and
- (3) Engage communities in changing norms around violence.

C.2.1 OAG provides grants to community-based organization to implement Cure the Streets in the target areas.

Site Details:

The program initially operated in two sites with some of the highest rates of gun violence in the District, one in Ward 5 and one in Ward 8. OAG received additional funding from the Council of the District of Columbia for FY2020 to expand the program to four additional sites in Wards 5, 7, and 8, for a total of six active program sites. The program expanded again in April 2022, and now has a total of ten active program sites.

C.2.2 In an effort to address the need for a more efficient database and case management system for the Cure the Streets program, OAG will engage the services of the Contractor to develop an in-house database, case management system, and data dashboard.

C.2.2.1 OAG seeks to measure 1) the program's overall effectiveness in meeting its violence reduction goal in quantitative terms and 2) assess the effectiveness of each of the 10 sites individually at reducing violence in quantitative terms and 3) assess opportunities to increase effectiveness at each of the 10 sites and as a whole. OAG also seeks to evaluate the current need of the 10 sites, and if there are any program reductions that could be made based on the qualifiers that were used to determine the location of program sites. OAG envisions that a selected contractor would complete the tasks below, but would rely on the contractor's expertise and experience to develop a project plan:

- Conduct original time-series analysis, with CTS sites and comparison control sites
- Assess existing or conduct original hot-spot mapping, with CTS sites and comparison control sites
- Evaluate or conduct original and network analysis
- Conduct impact evaluation
- Conduct opportunity analysis

- Process evaluation

C.2.2.2 Analysis techniques could include:

- Traditional assessment and research methods to evaluate program effectiveness. Non-traditional assessment methods, such as community engagement and Participatory Action Research may be useful to determine opportunities to increase program effectiveness.
- The time-series analyses using historic and current data on selected program sites to examine trends in each ward itself and with comparison control sites that did not have a CTS program.
- Crime mapping techniques to examine the impact of the introduction of the program on short-term and long-term trends in the microlevel distribution of shootings; and with comparison control sites that did not have a CTS program.
- Social network analyses to examine the effect of CTS on networks of within-gang and between-gang homicides and the number of violent gangs active in the area.

SECTION M - EVALUATION FACTORS

M.1 EVALUATION FOR AWARD

The contract will be awarded to the responsible offeror whose offer is most advantageous to the District, based upon the evaluation criteria specified below. Thus, while the points in the evaluation criteria indicate their relative importance, the total scores will not necessarily be determinative of the award. Rather, the total scores will guide the District in making an intelligent award decision based upon the evaluation criteria.

M.2 TECHNICAL RATING

M.2.1 The Technical Rating Scale is as follows:

<u>Numeric Rating</u>	<u>Adjective</u>	<u>Description</u>
0	Unacceptable	Fails to meet minimum requirements; e.g., no demonstrated capacity, major deficiencies which are not correctable; offeror did not address the factor.
1	Poor	Marginally meets minimum requirements; major deficiencies which may be correctable.
2	Minimally Acceptable	Marginally meets minimum requirements; minor deficiencies which may be correctable.
3	Acceptable	Meets requirements; no deficiencies.
4	Good	Meets requirements and exceeds some requirements; no deficiencies.
5	Excellent	Exceeds most, if not all requirements; no deficiencies.

M.2.2 The technical rating is a weighting mechanism that will be applied to the point value for each evaluation factor to determine the offeror's score for each factor. The offeror's total technical score will be determined by adding the offeror's score in each evaluation factor. For example, if an evaluation factor has a point value range of zero (0) to forty (40) points, using the Technical Rating Scale above, if the District evaluates the offeror's response as "Good," then the score for that evaluation factor is 4/5 of 40 or 32.

If subfactors are applied, the offeror's total technical score will be determined by adding the offeror's score for each subfactor. For example, if an evaluation factor has a point value range of zero (0) to forty (40) points, with two subfactors of twenty (20) points each, using the Technical Rating Scale above, if the District evaluates the offeror's response as "Good" for the first subfactor and "Poor" for the second subfactor, then the total score for that evaluation

factor is 4/5 of 20 or 16 for the first subfactor plus 1/5 of 20 or 4 for the second subfactor, for a total of 20 for the entire factor.

M.3 EVALUATION CRITERIA

Proposals will be evaluated based on the following evaluation factors in the manner described below:

M.3.1 TECHNICAL CRITERIA (80 Points Maximum)

A. Technical Approach (25 Points)

OAG will evaluate the Offeror’s understanding of the project requirements and its proposed Project Plan to complete the required services including the proposed analysis techniques and data sets to be used and how data to be obtained, the ability of the offeror to provide the required deliverables, and the ability to adhere to the deliverables schedule.

B. Offeror’s Staff Qualifications and Experience (25 Points)

OAG will evaluate the Offeror’s proposed staffing plan, including the submitted resumes and professional qualifications of the proposed personnel, to assess the extent to which they possess the necessary skills, qualifications, and relevant experience to effectively meet the requirements outlined in the Statement of Work. The evaluation will focus on the alignment of the proposed staff’s expertise with the project needs and the Offeror’s ability to assign the appropriate personnel to key roles for successful project execution.

C. Offeror’s Capacity and Experience (30 Points)

OAG will evaluate the experience in evaluating violence reduction programs. OAG will consider the Offeror's experience with similar projects, sample Assessment Reports from other engagements, Past Performance Evaluations obtained from other clients of the offeror, description of the Offeror’s current workload and capacity/commitment to complete the requested scope of services in accordance with the specified schedule.

M.3.2 PRICE CRITERION (20 Points Maximum)

The price evaluation will be objective. For the purposes of evaluation only, the District will use a quantity of 1 hour times the hourly labor rate for each CLIN in the option years to calculate a total proposed price to use in the formula below. The offeror with the lowest total price for the base period and option years will receive the maximum price points. All other proposals will receive a proportionately lower total score. The following formula will be used to determine each offeror's evaluated price score:

$$\frac{\text{Lowest price proposal}}{\text{Price of proposal being evaluated}} \times \text{weight} = \text{Evaluated price score}$$

For example: If the offeror proposes the following prices, the total proposal price for option year one used for the purposes of calculating an evaluated price score would be \$580.

Contract Line Item No. (CLIN)	Labor Category	Hourly Labor Rate *
1001	Data Assessment	\$ 170
1002	Web-Design Services	\$ 150
1003	Program Database Updates	\$ 100
1004	Online Training	\$ 60
1005	Technical Assistance	\$ 100
		\$ 580

M.3.3 PREFERENCE POINTS AWARDED PURSUANT TO SECTION M.5.2 (12 Points Maximum)

M.3.4 TOTAL POINTS (112 Points Maximum)

Total points shall be the cumulative total of the offeror’s technical criteria points, price criterion points and preference points, if any.

M.4 EVALUATION OF OPTION YEARS

The District will evaluate offers for award purposes by evaluating the total price for all options as well as the base year. Evaluation of options shall not obligate the District to exercise them. The total District’s requirements may change during the option years. Quantities to be awarded will be determined at the time each option is exercised.

M.5. PREFERENCES FOR CERTIFIED BUSINESS ENTERPRISES

Under the provisions of the “Small and Certified Business Enterprise Development and Assistance Act of 2014”, D.C. Official Code § 2-218.01 *et seq.*, as amended (“Act”, as used in this section), the District shall apply preferences in evaluating proposals from businesses that are certified by the Department of Small and Local Business Development (DSLBD) pursuant to Part D of the Act.

M.5.2 Maximum Preference Awarded

Notwithstanding the availability of the preceding preferences, the maximum total preference to which a certified business enterprise is entitled under the Act is the equivalent of twelve (12) points on a 100-point scale for proposals submitted in response to this RFP. There will be no preference awarded for subcontracting by the prime contractor with certified business enterprises.

M.5.3 Preferences for Certified Joint Ventures

A certified joint venture will receive preferences as determined by DSLBD in accordance with D.C. Official Code § 2-218.39a(h).

M.5.4 Verification of Offeror's Certification as a Certified Business Enterprise

M.6 EVALUATION OF PROMPT PAYMENT DISCOUNT

M.6.1 Prompt payment discounts shall not be considered in the evaluation of offers. However, any discount offered will form a part of the award and will be taken by the District if payment is made within the discount period specified by the offeror.

M.6.2 In connection with any discount offered, time will be computed from the date of delivery of the supplies to carrier when delivery and acceptance are at point of origin, or from date of delivery at destination when delivery, installation and acceptance are at that, or from the date correct invoice or voucher is received in the office specified by the District, if the latter date is later than date of delivery. Payment is deemed to be made for the purpose of earning the discount on the date of mailing of the District check.
